New Business:

- Guest Speaker—Laura Zurn from the Chemung County Youth Employment Bureau. Laura spoke to the group about the County's program that employs 100 youths ages 14-20 for the summer months. The county pays the salaries for the youths and offers them to local businesses as a way to employ them and provide local businesses with basically "free" employees. They take 300 applications to fill 100 spots. Laura gave her info to contact her if any business is interested in being a part of the program. The youths can work up to 25 hours/week. Julie has success with the program for 7 years.
